# PLEASE WAIT

This pinboard could be an organiser. School stuff in one area, work stuff in another. Appointments, 'to do' lists, flyers, numbers, whatever. If you need to Mondrianise your life. Or use it as a moodboard – photos, tickets, recipes, fun.

The pinboards come in three different sizes and can combine to create a dynamic landscape for presentation, composition and decoration. Clean-lined, multifunctional but flexible. The foam and textiles have been specially engineered to provide soundproofing, so the NOUVEAU PIN softens the acoustic signature of any space it adorns.

## FABRIC COLOURS:

Inspired by the modern urban environment, the Copenhagen-based 'ALL THE WAY TO PARIS' studio has established itself at the place where art direction, graphic design and product design development align. Since 2005, Tanja Vibe and Petra Olsson Gendt have been generating fresh design and product ideas that share a clear, intelligent and uncluttered visual identity.
